**Die meisten Menschen können gar nicht mit dem Gedanken leben, dass sie mal einen Schlaganfall erleiden könnten. Diese Abwehrhaltung ist schädlich. Man muss sich auf alles gefasst machen und die eigenen Möglichkeiten ausschöpfen. Wenn man sich nicht auf alles gefasst macht, kann man auch nicht alles geben. Und das ist schade.**

"So, you want to know how we met," begins Marie, collecting all Jax, George and David. "We had a family gathering, because dad is now infirm, and at the University. And at Queen's House. It was there when I was 16, that George and I started talking about each other, and on the day I got that first real spring break in the ocean with all, him and me and the boys. And... Oh, I haven't seen 'George,' so I need him more."

“The fact that we have been able to make this discovery,” says Dr. David Schrag, “helps us understand more about how the world’s oceans have changed over the last 100,000 years. It also tells us that the oceans have been able to absorb a lot of the carbon dioxide that we have put into the atmosphere, which is good for the planet.”
